

Challenge

Mirror Portraits

Can you draw your own portrait? Ask a grown up for a mirror to look in. While you are looking in the mirror try and draw your own portrait. Look at what colour eyes you have, the shape of your nose and mouth, what colour hair you have, is it long, short, curly or straight? Do you have any distinguishing features such as freckles? You could get each member of your family to do it and then cut them all out to make a family portrait.
