

How to plant a Beanstalk

1. You could decorate your pot with some stickers or paint
2. Then fill the pot with soil (compost)
3. Next make a little hole using your thumb in the soil
4. Push the bean seed into the hole and the pat it down
5. Give it a little spray or drink of water
6. Put it in a sunny place near the window
7. Water it a little bit every 2 days
8. Watch and wait...
